

From Susan ...

Summer saw the introduction of a much larger range of lifestyle shoes which included Naot, Merrell, Planet, Ecco, Kubo, Reiker, Naturaliser, Stegman and of course Diana Ferrari, Supersoft, Kumfs and Hush Puppies. The season was a huge success with ladies being able to shop in Lismore.

Next summer will see these ranges increased once again.

Even though we have had a long hot summer our winter stock has taken off with gusto.

This winter we have a huge range of extremely comfortable classic long boots. This is aside from our stocks of fantastic ankle boots and shoe boots. The trend this winter is continuing on from last winter with the majority of boots being flatter than in the last few years.

Don't forget our incredible range of corporate and work shoes not available anywhere else in Lismore or Ballina for that matter.

Over the past several months we have increased our Evening Bags range so make sure you check it out. New styles and ranges to equal any city or Gold Coast store.

This winter you will see a great range of scarves at reasonable prices together with some great hats.

We are just finishing off our Summer 2010/2011 purchasing and are you in for a treat. Lots of lovely sandals and thongs and of course a larger range of lifestyle shoes.

Ladies don't forget that 90% of our brands are exclusive to Bondfields and can't be found anywhere else.

So don't forget to shop at Bondfields where customer service is our motto and your every shoe need is met.

Hot Store News ...

Our '**Comfort Range**' has started to arrive and we will be endeavouring to keep as much stock as is possible all year round. This will allow us to cater for the ladies who are travelling and the seasons where they are travelling are the opposite of ours. Our comfort range will include shoes at all prices to suit your budget whatever that may be.

Yes we have been starting to make some Mini-Videos recently and will continue to do so each season plus at other intervals throughout the year to show you exactly what we have on the shelves in-store. And you can check out the Autumn 2010 Video by visiting this link online:

A Woman Can Make A Fashion Statement With Her Shoes And Handbags ...

If you are looking for women's shoe tips, look no further than this handy guide on mixing and matching some of your favourite shoe types and colours. The best part about making a fashion statement with either your shoes or your handbag collection is that you will attract the attention of whomever it is you want to attract the attention of by just doing what you would normally do: look good. Looking good is a matter of confidence and gaining that confidence has a lot to do with how comfortable you are in your clothes and, of course, on your feet. For this reason, knowing a few women's shoe tips can be great.

Women's shoe tips are basically created to establish a tone or precedent in terms of how shoes are worn by women and what they accomplish. Remember that when you are wearing your shoes, you want to be comfortable first and foremost. This is because there is nothing worse than looking gaudy and uncomfortably stiff in a pair of shoes that do nothing for you in terms of comfort or style. It is better to be comfortable and looking relaxed in a pair of flip-flops than it is to look awkward and unbalanced in a pair of gorgeous six-inch stilettos. Keep it simple and you will learn some of the best women's shoe tips from that simple principle.

Making The Grade

Making a fashion statement isn't always easy because it seems that the statements always change. Fashion is fickle, as we all know, and making a statement today could easily change into not making a statement for tomorrow. You need to ask yourself if it is really best to try to keep up with the fashion community in terms of what is supposed to look good or if you want to go with your instinct and use what you know of yourself to maintain an air of confidence. The best in terms of women's shoe tips, for example, come from looking the part and not necessarily dressing for it.

Women's shoe tips, in their very basic form, are designed to help you look more comfortable in your shoes. This is really simple; it is a matter of whether or not your functionality is influenced by your shoes. If you find that you cannot walk properly, you are wearing the wrong shoes no matter how good you think they look. You do not look good stumbling around on a pair of heels that are, allegedly, in fashion. Instead, look good by being you and influencing other women to do the same. Stop looking for women's shoe tips from externals and start looking within your own closet for what works.

Basic Bag Fashion This Month ...

Don't forget that your handbag can be as classic or as funky as you want it to be. As plain in colour or as colourful as you want. Our winter range is delightful and ranges from synthetic to leather and all price ranges are catered for. Being winter bags tend to be a bit more toned down in color.

Until next time, we wish you the very best that life can bring . . .

Susan and the Bondfields Team 😊
